INDIA SEES MASSIVE JUMP IN JOB
CREATION 172 MILLION NEW JOBS CREATED
IN LAST DECADE

-By Vincet Handa

New Delhi, October 23, 2024 - In a significant boost to the country's economy, India has created approximately 172 million new jobs in the last decade, from 2014 to 2024. This growth has been driven mainly by the services, agriculture, manufacturing, infrastructure, MSME, healthcare, and education sectors.

According to data released by the government, the peak year for job creation was FY 2023-24, with 46 million new jobs created. This marks a 36% growth in job creation under the current government, compared to a 6.6% growth in the previous decade.

The services sector, including IT and startups, has been a major driver of job creation, with employment growing from 5.5 million in 2014 to 15 million in 2024. The agriculture and allied sector has also seen significant growth...

Pivoting to Power: A Strategic Framework for India's Geoeconomic Sovereignty

-By Murali Sundaram

The imposition of escalating trade tariffs by the United States represents a significant external shock to the Indian economy, threatening key export sectors and challenging established growth models. However, viewing this development solely as a threat would be a strategic miscalculation. These tariffs are, more accurately, a catalyst—an urgent impetus for India to accelerate its transition from a passive participant in the global economic order to an active architect of its own geoeconomic destiny. This report presents a comprehensive strategic framework designed not merely to mitigate the immediate impact of US tariffs but to fundamentally de-risk the Indian economy from future shocks and establish a durable foundation for sovereign economic power.

सफलता को कहानी

श्रीमान भरत भाई - ऐपेक्स टेक्नोप्लास्टः दोस्तों ने मिलकर खड़ा किया व्यवसाय।

राजकोट के समीप सरस्या गांव के रहने वाले श्रीमान भरत भाई ने अपनी ग्रेजुएशन गांव में ही रहकर पूरी करी। उनका पैतृक व्यवसाय खेती-बाड़ी का था। 2003 से 2009 तक अपने समीप के शहर राजकोट में आकर नौकरी की। फिर साल 2010 में अपने कुछ दोस्तों के साथ मिलकर एक हार्डवेयर बनाने वाली फैक्ट्री खोली। सभी दोस्तों ने अपने रिश्तेदारों से पैसे इकट्ठे कर कर एवं बैंक से फाइनेंस लेकर 50 लाख रुपए की राश जोड़ी।

और तब ऐपेक्स टेक्नोप्लास्ट नामक कंपनी की शुरुआत हुई जिसके अंतर्गत वह जॉब वर्क पर लोगों के लिए अलग-अलग उत्पादन बनाते थे। धीरे-धीरे काम बढ़ने लगा एवं मार्केट में उनका वर्चस्व भी। अब शुरुआत हुई उनके स्वयं के प्रोडक्शन की एवं मार्केट में अपने उत्पादन अपने नाम से बेचने की। चारों ही दोस्तों ने प्रोडक्शन का एवं पूरे व्यवसाय का अलग-अलग कार्यभार संभाल लिया। एवं चारों ही यह ध्यान देने लगे कि वह अपना दायित्व पूरी तरह से निभाएं। शुरू में पैसा बचाने के लिए वह स्वयं ही अपने हाथों से माल बनाते एवं देर रात तक बैठकर उसकी पैकिंग किया करते थे। जब उन्होंने व्यवसाय की शुरुआत की थी तो एक छोटी सी किराए की जगह से शुरुआत की थी एवं केवल एक मशीन लगाई थी। अपनी मेहनत से वह उस किराए की जगह से बड़ी जगह पर आ गए एवं मशीने भी बढ़ा दी। आज उनका सालाना टर्नओवर 5 करोड़ के लगभग है।
